REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

None of the prior art made of record includes a cleaning tool assembly comprising the combination of a disposable cleaning head, an elongated shaft having a handle portion, a gripping mechanism mounted to the elongated shaft, including a contact region moveable between a gripping condition and a release condition, and an elastic boot configured to extend substantially over the contact region of the gripping mechanism, so when the gripping mechanism is in the gripping condition, the contact region urges the elastic boot against the engaging surface of the cleaning implement to form a substantially liquid-tight seal therebetween to substantially delay solubility or dispersion of the engaging surface. The Applicant has clarified what is meant by "relatively rigid" in the remarks of 23 November 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
